

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: MARINA MARTINIELLO

I **support** these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

---

---

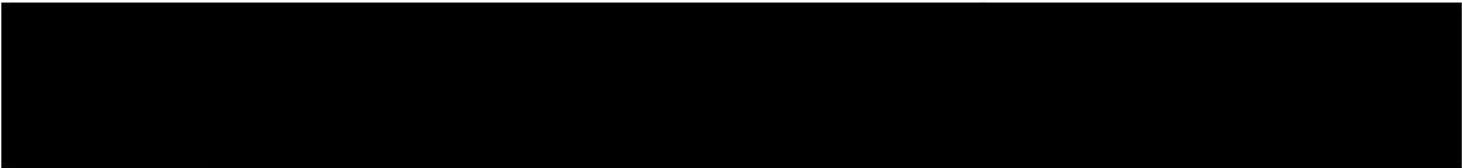

---

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name:

*Shireen Fawcett*

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

- Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

**I oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*Save our mother Earth*

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Amanda Furze

I support these aspects of the IWCM for the reasons given in the IWCM:

- ✓ Water loss management focused on Rous assets
- ✓ Section 15.4.2, development and implementation of a direct potable reuse scheme
- ✓ Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- ✓ Drought management planning
- ✓ Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- ✓ Sustainably powered temporary desalination plants on the coast
- ✓ Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I support Rous decision to reject the Dunoon Dam option as old technology that is unsustainable in drought. There are many smart water options that are more appropriate & less destructive to flora & fauna habitats in the last remnants of Big Scrub rainforest.

- I'd like to keep in touch with the campaign with updates from Water Northern Rivers
- I want to be more actively involved

## Submission

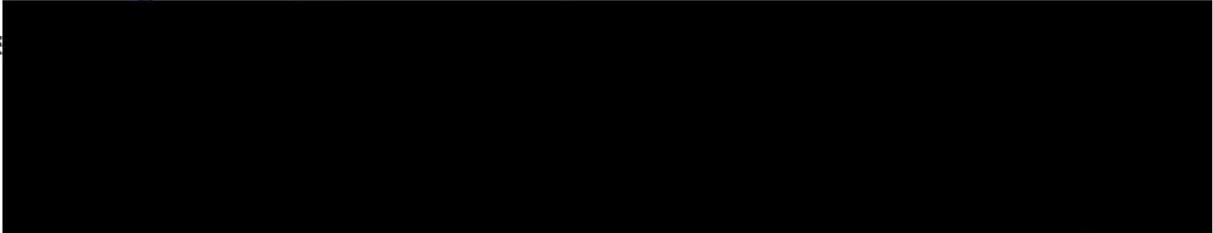

### Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Roger SMISEK

Address:

Email:

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets .

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

THE DAM IS NOT NEEDED  
WATER TANKS , RATES.

I'd like to keep in touch with the campaign with updates from Water Northern Rivers

I want to be more actively involved

## Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Karri Smisek-Walters

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage, **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Please consider integrating more water sensitive design around the Shire - and some more policy around water saving in home etc. Educate the people please!

I'd like to keep in touch with the campaign with updates from Water Northern Rivers

I want to be more actively involved

Email:

Phone:

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Red Bryant*

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*More tank subsidie's*

*No to the dam*

*Protect Channon Waterways*

I'd like to keep in touch with the campaign with updates from Water Northern Rivers

I want to be more actively involved

## Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Brigitte Boll

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

this is environmental destruction

- I'd like to keep in touch with the campaign with updates from Water Northern Rivers
- I want to be more actively involved

## Submission

### Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Dr A.T. Ross

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets .

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

our water is precious our forests are important,  
our Indigenous heritage is important. All of these  
things are our most precious assets. They need to  
be saved for our future generations.

- I'd like to keep in touch with the campaign with updates from Water Northern Rivers
- I want to be more actively involved

## Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: CLARE HOPKINS

Address:

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

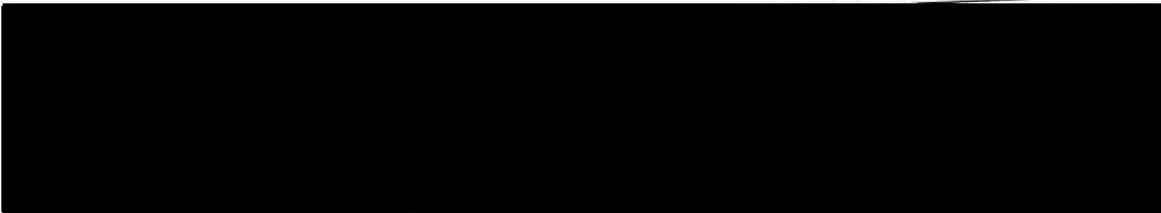

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

We don't need this dam.

Educate - save land + natural resources

I'd like to keep in touch with the campaign with updates from Water Northern Rivers

I want to be more actively involved

Email:

Phone:

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Bob BRACE

Address

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

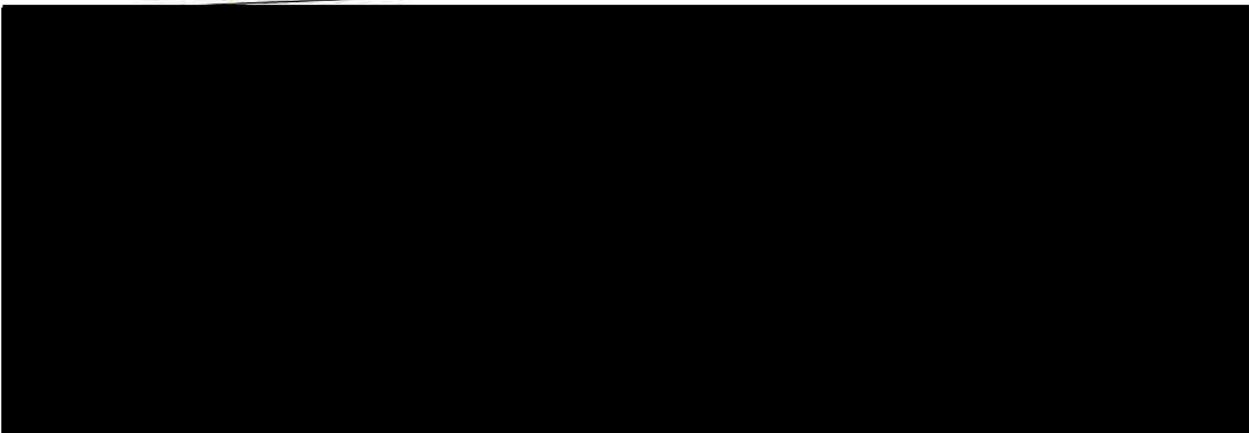

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That we value our beautiful area and  
wish to keep it for our grandchildren

# Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *PETER JARRITT*

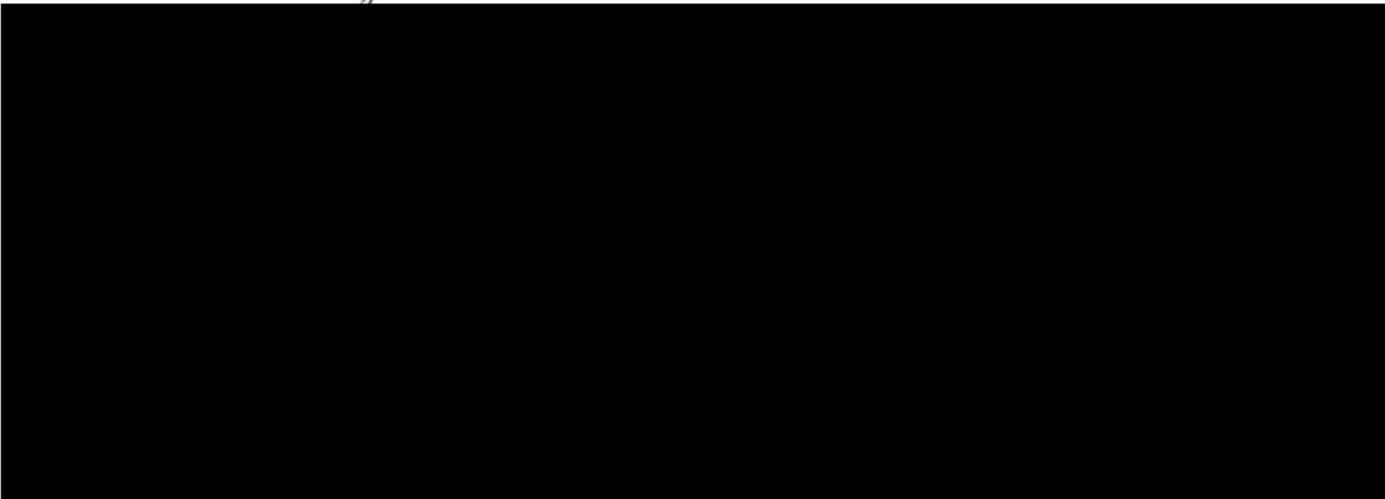

**I support** these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

**I oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*THAT I DON'T APPROVE OF THE DUNOON DAM.*

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name:

Midele Lawson.

I **support** these aspects of the IWCM for the reasons given in the IWCM:

- ✓ Water loss management focused on Rous assets
- ✓ Section 15.4.2, development and implementation of a direct potable reuse scheme
- ✓ Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- ✓ Drought management planning
- ✓ Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- ✓ Sustainably powered temporary desalination plants on the coast
- ✓ Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

---

---

---

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Margeaux Davis

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

- I oppose the dam enabling the extra development of housing on the far north coast.
- I oppose the destruction of habitat the dam will cause.
- I encourage the requirement of new housing to install water tanks for water catchment.

I'd like to keep in touch with the campaign with updates from Water Northern Rivers

I want to be more actively involved

Email:

Phone:

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Matthew Wiseman

**I support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

**I oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

- Oppose the dam due to flooding of
- Channon gorge - key corridor to Nightcap NP
- Extra development the dam will enable
- Council needs require all developments to be self sufficient with rain water harvesting

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: CHRISTINE PAULING

**I support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

**I oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That a dam in Dunoon/Clarno would  
be too destructive to significant indigenous  
sites.

## Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name:

BEN SMITHSON

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I CONTEST + DISAGREE WITH THE PROPOSED  
CONSTRUCTION OF DUNOON DAM. THE IMPACT  
ON THE CREEKS + RAINFOREST WILL  
CAUSE DAMAGE TO WILDLIFE +  
THOSE LIVING IN THE AREA.

I want to be more actively involved

Email:

Phone:

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: David WRAI

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That I oppose the needless construction of the Dunoon dam and the destruction of vital wildlife habitats

I want to be more actively involved

Email: as above.

Phone:

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Victoria Middleton*

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

**I oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*Everyone should be required to collect their own water in rainwater tanks and leave pristine wilderness areas alone. We have so little left, please think sensibly about utilisation of our scarce resources and precious earth.*

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Rob Johnston.

**I support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

**I oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That until better water management systems are in place, we will always have water management issues, and we are in need of better water usage and recycling.

## Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *ANNA KOWALCZYK*

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*OUR local area you're planning to flood is far too precious & sacred to plunder.*

*Educate residents on water saving solutions.*

*System efficiency.*

# Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: RICHARD FRANKL

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

---

## Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: JESSIE VINTKA

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I support non rainfall dependent long term water supply solutions. This dam is an ~~at the~~ outdated solution + brings a myriad of destructive ~~consequ~~ consequences that can be avoided. Also, the cost is enormous financially + consumers will struggle to pay.

-----  
rn Rivers

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Jodie Shovel

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

that my family give no support  
for the Dunoon Dam.

As a third generation family to the area  
we strongly disagree with the Dam.

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Pen Kiantinen*

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*That in this day & age, this proposal is ludicrous, there is enough know-how and modern solutions available, have the guts to find the political will and moral responsibility to approach this in an appropriate manner, this is what you were elected for.*

I'd like to keep in touch with the campaign with updates from Water Northern Rivers

I want to be more actively involved

Email:

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Lelli Brown

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

There are plenty of better, sustainable, water solutions than Dams. Our forests are invaluable in holding water in the land & preventing erosion & producing clean air. Our indigenous & natural heritage should not be flooded when it has been proven by various studies that open water storage is not effective & not drought-proof

I'd like to keep in touch with the campaign with updates from Water Northern Rivers

I want to be more actively involved

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

**I oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*No Dam at all here.*

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Maurice Webster

I support these aspects of the IWCM for the reasons given in the IFCM:

- ✓ Water loss management focused on Rous assets
- ✓ Section 15.4.2, development and implementation of a direct potable reuse scheme
- ✓ Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- ✓ Drought management planning
- ✓ Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- ✗ Sustainably powered temporary desalination plants on the coast
- ✓ Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Sustainable long term supply will not happen

unless we manage demand better -

lets focus on reducing the 'avoidance' uses of water - its too valuable to flush!

# Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Tess Saxton

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

~~Prop~~ our community water use is responsible  
and I hope that other people  
in larger communities level  
by and use less water not  
just use more!  
Thanks

## Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *IAM INNES*

**I support** these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

**I oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM),

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Sonya Murphy*

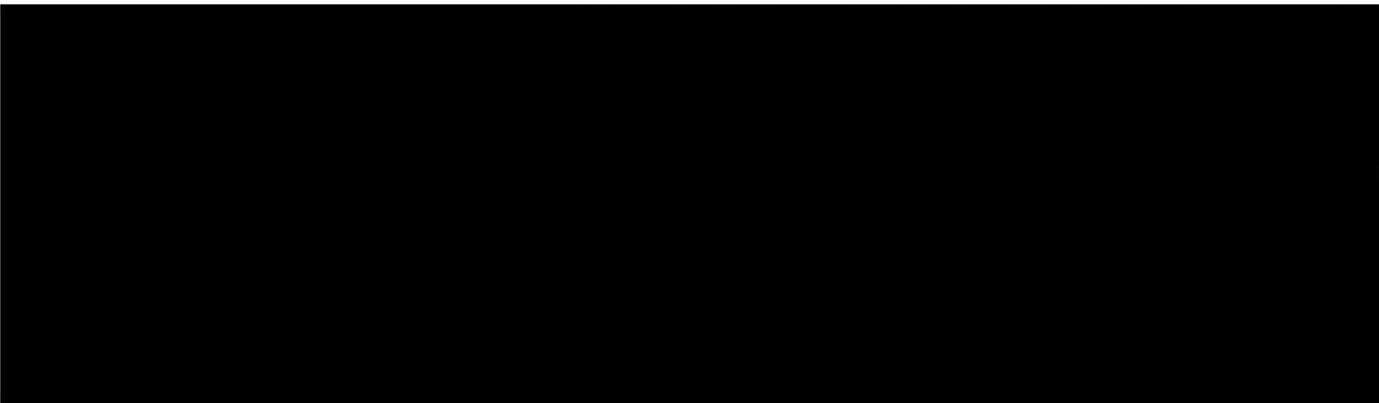

I **support** these aspects of the IWCM for the reasons given in the IWCM:

- ✓ Water loss management focused on Rous assets
  - Section 15.4.2, development and implementation of a direct potable reuse scheme
  - Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- ✓ Drought management planning
  - Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
  - Sustainably powered temporary desalination plants on the coast
- ✓ Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

- *I strongly oppose the dam for the following reasons:*
    - *destruction of Widjabal Cultural sites*
    - *destruction of natural rainforest & habitat*
    - *flood risk and loss of life to myself and others if dam wall were to collapse.*
- 

## Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Sulien Pearce*

I support these aspects of the IWCM for the reasons given in the IWCM:

- ✓ Water loss management focused on Rous assets
  - Section 15.4.2, development and implementation of a direct potable reuse scheme
  - Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- ✓ Drought management planning
  - Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- ✓ Sustainably powered temporary desalination plants on the coast
  - Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*I Really dont support the Dam Bother for ecological  
Reason and the destruction of wild life ~~and~~ and habitat  
It also is a potential risk on Human life if Dam  
Failures occur. I do not support the Dam.*

## Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Ray Spind*

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

**I oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*Dont want trucks and unnecessary  
waste of fuel moving dirt*

## Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Melanie DORIEAN

I **support** these aspects of the IWCM for the reasons given in the IWCM:

- ✓ Water loss management focused on Rous assets
- ✓ Section 15.4.2, development and implementation of a direct potable reuse scheme
- ✓ Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- ✓ Drought management planning
- ✓ Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- ✓ Sustainably powered temporary desalination plants on the coast
- ✓ Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

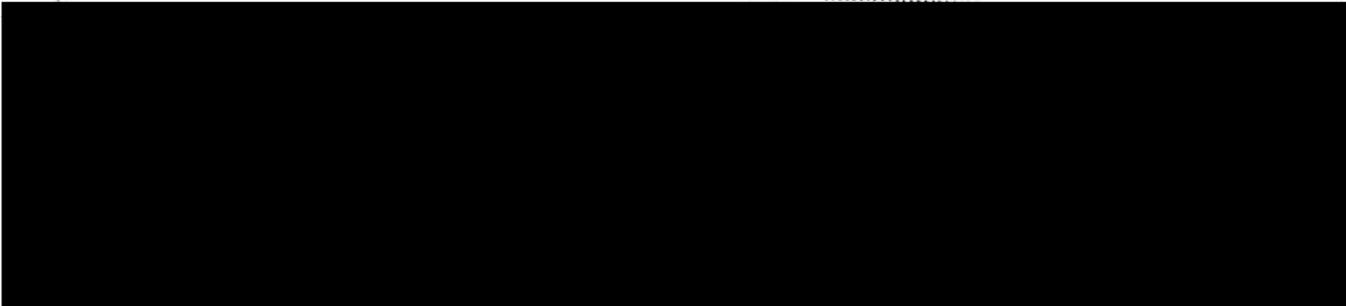

- I am saddened by the misinformation that some organisations have very actively promoted.
- This is not an arena for "party politics" but a decision that should be based on the best outcomes balanced with the top priority of maintaining what little we have left of our environment.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management strategy

To: General Manager, Rous County Council  
PO Box 230, Lismore NSW 2480

Name: Annie Leishman

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and community multiple times.

I want Rous Councillors to know.....

That I support the Revised future water 2060 project and that it is a conscious and integral way to move into the future of water supply to our community. Sustainability and efficiency is high on my list of

**SUPPORT these aspects of the IWCM, for the reasons given in the IWCM**

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of direct potable reuse scheme
- Sustainable groundwater usage NOT from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15:4:3 Indirect potable water reuse, & its potential to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

priorities that I support in this issue. Protection of the ecological and cultural heritage is also important to me!

I want to be more actively involved

**Submission**  
**Revised Future Water Project 2060 - Integrated Water Cycle Management strategy**

To: General Manager, Rous County Council  
PO Box 230, Lismore NSW 2480

Name: Timothy Waidelech

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and community multiple times.

I want Rous Councillors to know.....

I would not normally be opposed to another dam. However the location of this dam is for too delicate and ecologically sensitive. Much of the area is irreplaceable habitat and rain forest. It is an important Koala corridor and has flora that is found nowhere else in the area.

**! SUPPORT** these aspects of the IWCM, for the reasons given in the IWCM

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of direct potable reuse scheme
- Sustainable groundwater usage NOT from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15:4:3 Indirect potable water reuse, & its potential to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I'd like to keep in touch with the campaign with updates from Water Northern Rivers

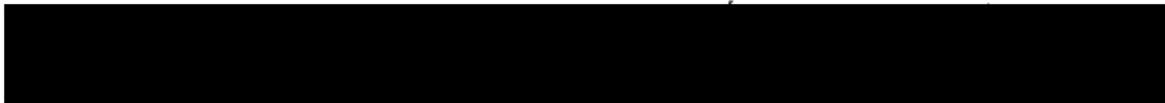

I want to be more actively involved

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: BLUE JACKSON .

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

There are alternatives .

Biodiversity ~~is~~ must be protected

People + other lifeforms ABOVE

CORPORATE role .

Water tanks rain, compost toilets  
are better.

## Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: JAMES FULLER

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

So many places use recycled water. Please  
stop hearing false claims about it.  
Society is plagued by profligate behaviour.  
The answers are to conserve. Its actually  
cheaper, too.

vers

## Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

## Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Eileen Tebovitt*

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*that there is a more useful, environmentally sound way of collecting water.  
Destroying pristine Rainforest with endangered species is definition of madness!*

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Yvonne Steinhilber

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That Dams are not sustainable & are  
in need of infrastructure maintenance when  
human culture is too volatile to commit to years  
ahead. De-centralize the water storage  
supply will be a more secure source &  
less environmentally damaging

## Submission

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: RHODRI BEST

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

The dam will eradicate an valuable ecosystem  
Threatening flora and fauna. Flood indigenous  
cultural heritage.

It will be a huge expense for an unsustainable  
water source that will not be usable for at least a  
decade.

## Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Sally Best

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I oppose destruction of big scrub rainforest, destruction of valuable Koala habitat and desecration of indigenous sacred sites. The dam is unnecessary for locals and cannot benefit them. The money is enormous from an unsustainable project

## Submission

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Better management of what we have now is needed. Listen to the scientific analysis that shows alternative ways

## Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name:

DAVID MCMIND

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

\* Other options are available  
\* It is the 21st century and  
think outside the box  
\* Look at recycling water  
— been done in the EU for decades  
\* Desalination Tank water

I'd like to keep in touch with the campaign with updates from Water Northern Rivers

I want to be more actively involved

## Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name:

LORI DUNNOON

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

WATER SECURITY IS REVIEWED BUT DO NOT CONSIDER  
THE PROPOSED ADDITIONAL DAM IS REVIEWED. I UNDERSTAND.  
THE MINING INDUSTRY IS CAUSING MANY ISSUES WITH WATER  
& SHOULD BE HELD ACCOUNTABLE FOR THEIR WATER USE.  
FURTHER WATER TANKS THAT CAPTURE RAIN WATER WOULD BE  
BETTER UTILIZED AS OPPOSED TO BILLIONS OF TAX PAYER MONEY

to consent

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: William McCareen

I oppose the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

**I oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

for 1 "LAST OF the Big  
scrub" Its National  
Park. thought it was  
out of the question.  
LAST OF Big scrub!!

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Elspeth Jones

... aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

**I oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Let the rivers flow free. Dams destroy  
the ecosystem, cultural heritage,  
wild life habitat. We don't need it.
