

ROUS WATER POLICY 11.9	Fluoridation		
AREA	Water supply		
OVERVIEW	Determine whether Rock Creek Dam water supply should be fluoridated.		
AUTHORISED COUNCIL	ROUS	RRCC	FNCW
	19/07/2006	N/A	N/A
REVIEW DATE	Term of Council		
FILE	172	843	1294

POLICY

Rous Water fluoridate the water supplied to its respective constituent Councils where a Council advises Rous Water that it would support either fluoridating their water supplies or referring such decision to the Director-General of Health. Should a constituent Council determine not to accept either of these options, Rous Water would not fluoridate water supplied to that Council's area.

The charge for water dosed with fluoride be the same as the charge for water not dosed with fluoride.
