

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Samuel Trowbridge

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

destruction of rainforest

Destroys Indigenous burial grounds

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Bianca Dinkelmann

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

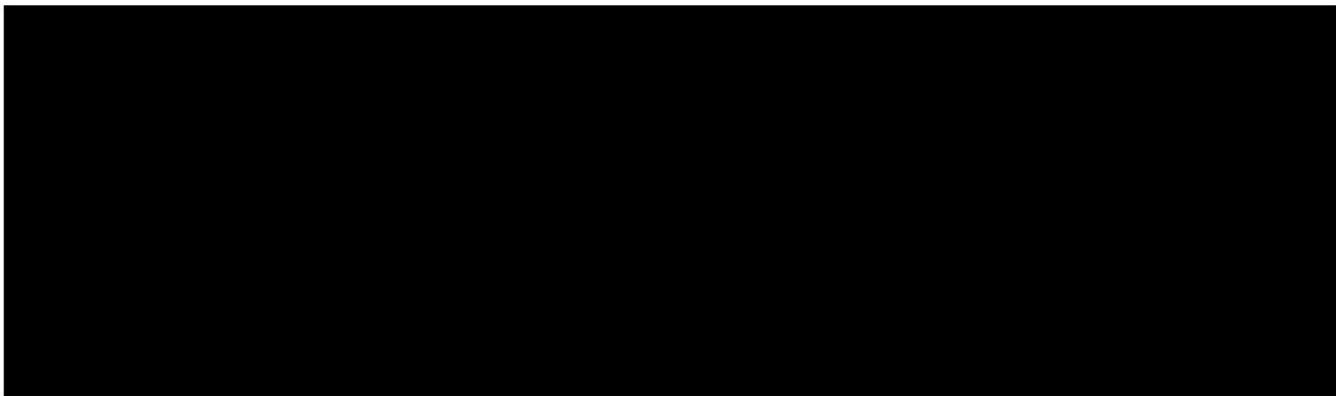

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

This development is not welcome

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Paddy Evington*

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

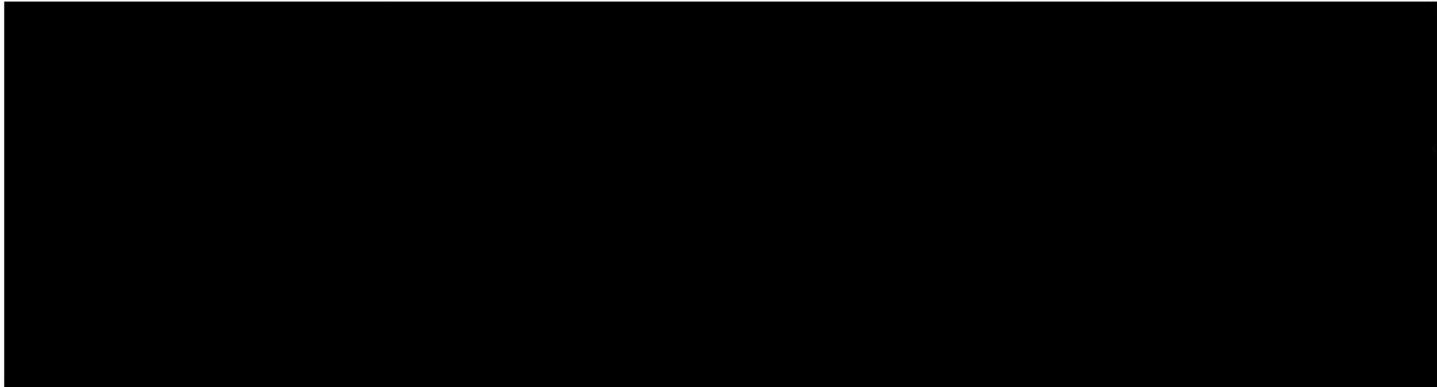

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Shann Hossack*

Section 15.4.2, development and implementation of a direct potable reuse scheme
Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
Drought management planning
Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
~~Sustainably powered temporary desalination plants on the coast~~
Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Jan Ross*

I **support** these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Your original decision was correct - don't be pushed into a retraction.

Signed

Date: / /

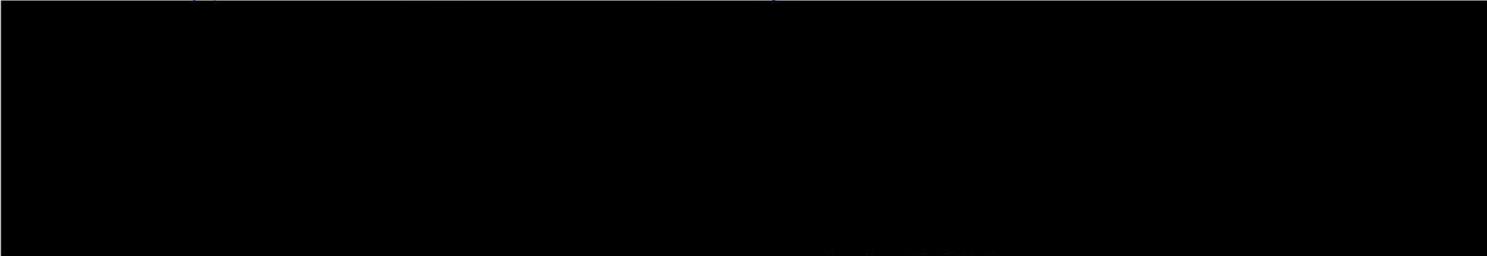

- I'd like to keep in touch with the campaign with updates from Water Northern Rivers
- I want to be more actively involved

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Hanan Stein Weinberg*

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

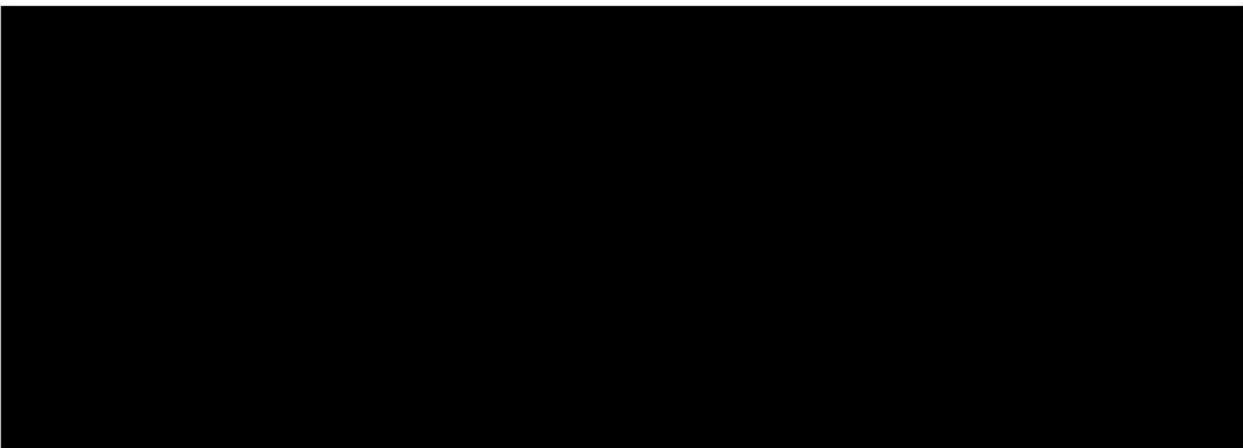

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Climate Change!!!

Submission ✓

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM) ,

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Rosemary STAVE

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

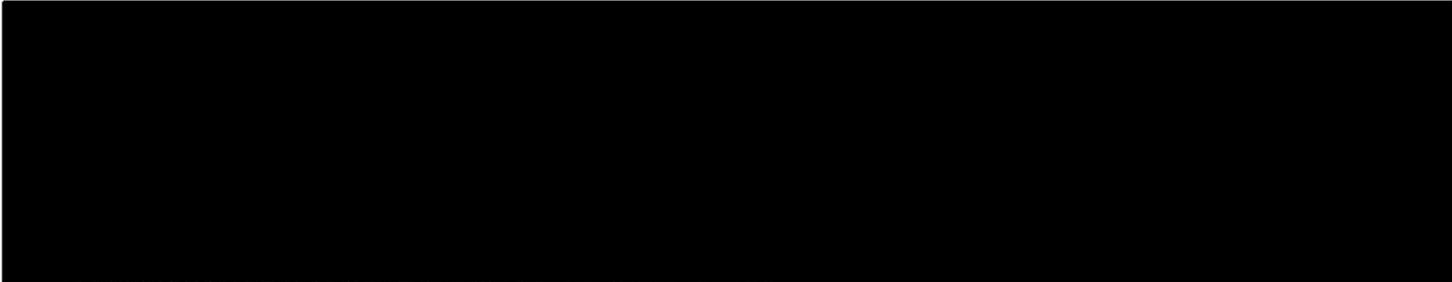

I support the IWCM and their reasons
— Dams create more problems than
they support — ~~the hard groundwater~~
~~should be~~

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: JINTA VEIT

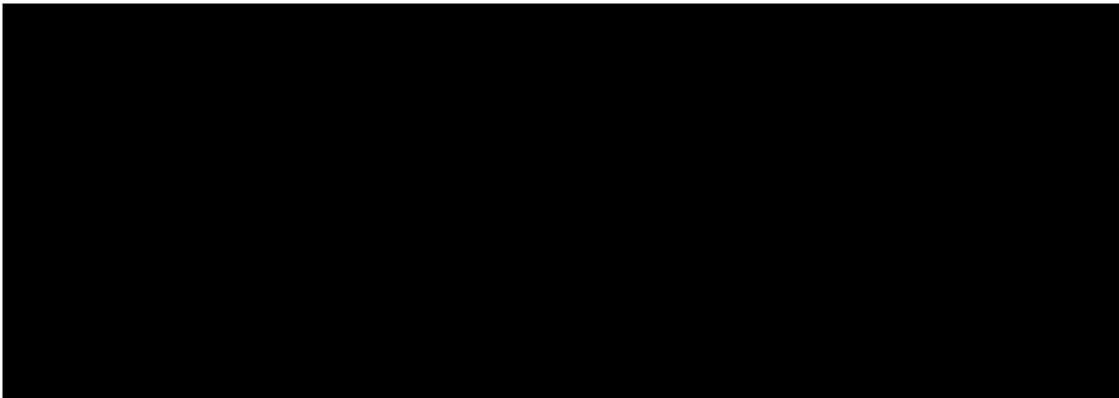

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

NO DAM

ers

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Samantha Morris*

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

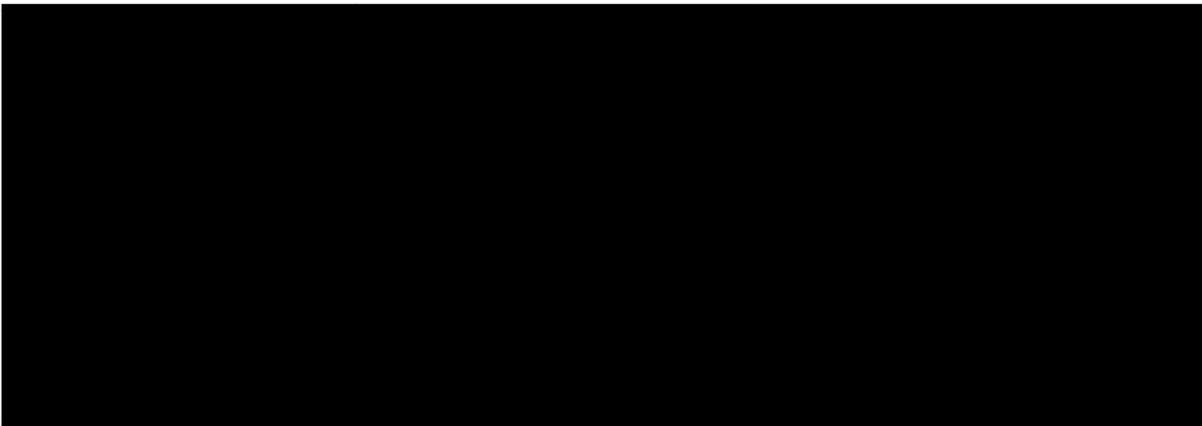

Sustainably powered temporary desalination plants on the coast

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

The development is not welcome!

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Amou Smith*

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*That they can't keep ruining our beautiful
forests and littering our oceans because
it won't last!*

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Oceana Williams-Braver

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

This is sacred country with abundant biodiversity of flora and ~~fauna~~ fauna that is vital to protect. There is no need for a destructive dam that will destroy the beautiful native wildlife.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Finn Rayner*

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

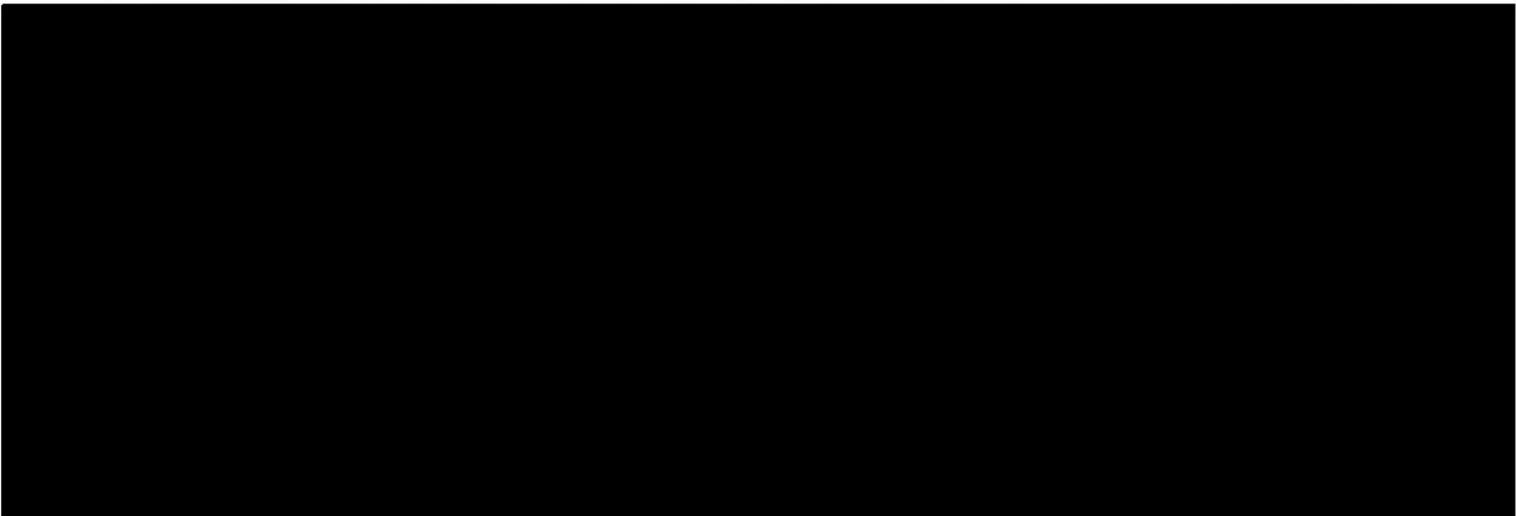

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That this is a real issue!

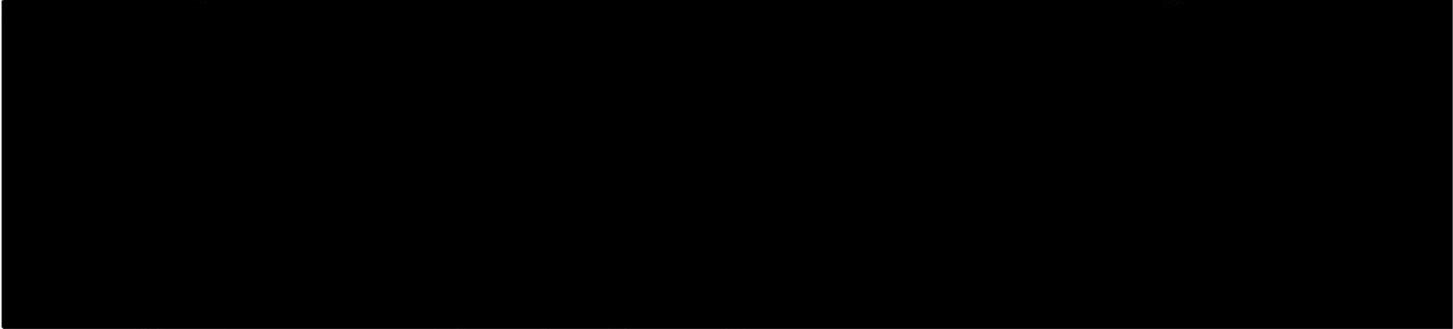

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: TIMOTHY GREENWOOD

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

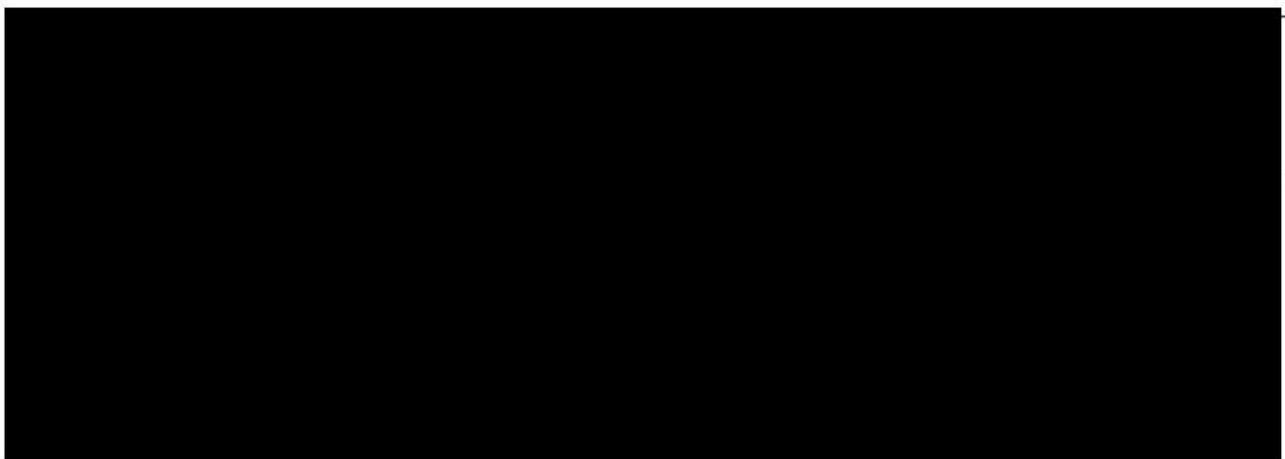

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

WE NEED WATER CAPTURE ON EVERY HOUSE WATER
TANKS / STORAGE FOR EVERY HOUSE WE DON'T NEED ANOTHER
DAM.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Heather Gillard

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

This is such important habitats for so many species of this region. Koala habitats of a healthy group is very significant as all groups have been so impacted by all the affects of climate change.

Submission

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and community multiple times.

I want Rous Councillors to know.....

I shant have a smart meter thank you -
Please put in my file/agreement I have with
you.

Very oposed to the Dunoon Dam - other
options are preferably a Respect for
indigenous culture essential. NO DAM

I SUPPORT these aspects of the IWCM, for the reasons given in the IWCM

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of direct potable reuse scheme
- Sustainable groundwater usage NOT from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15:4:3 Indirect potable water reuse, & its potential to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41 - the disposal of land zoned for the Dunoon Dam

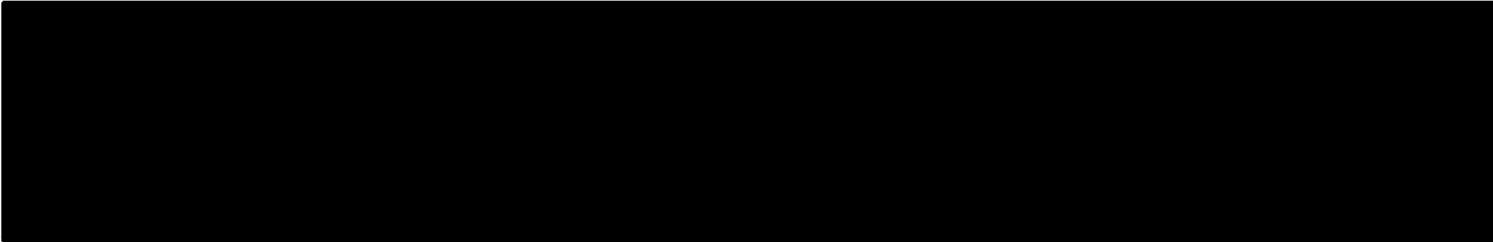

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Clare Johns

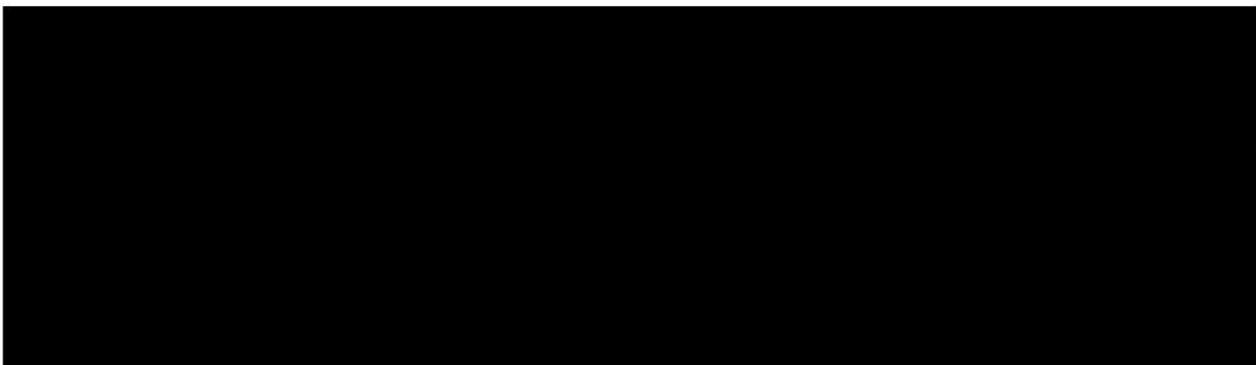

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Dave Ducker*

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

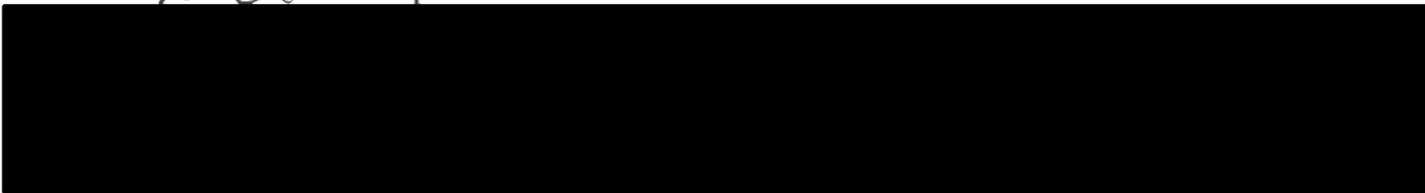

That enough damage has been done to the big scrub and Australian wildlife. Deforestation is detrimental to native wildlife and the environment. Less than 1% of the big scrub remains, erosion is prevalent and this dam is unnecessary.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, P.O Box 230, Lismore NSW 2480

Name: *Noela Yates*

I **support** these aspects of the IWCM for the reasons given in the IWCM.

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

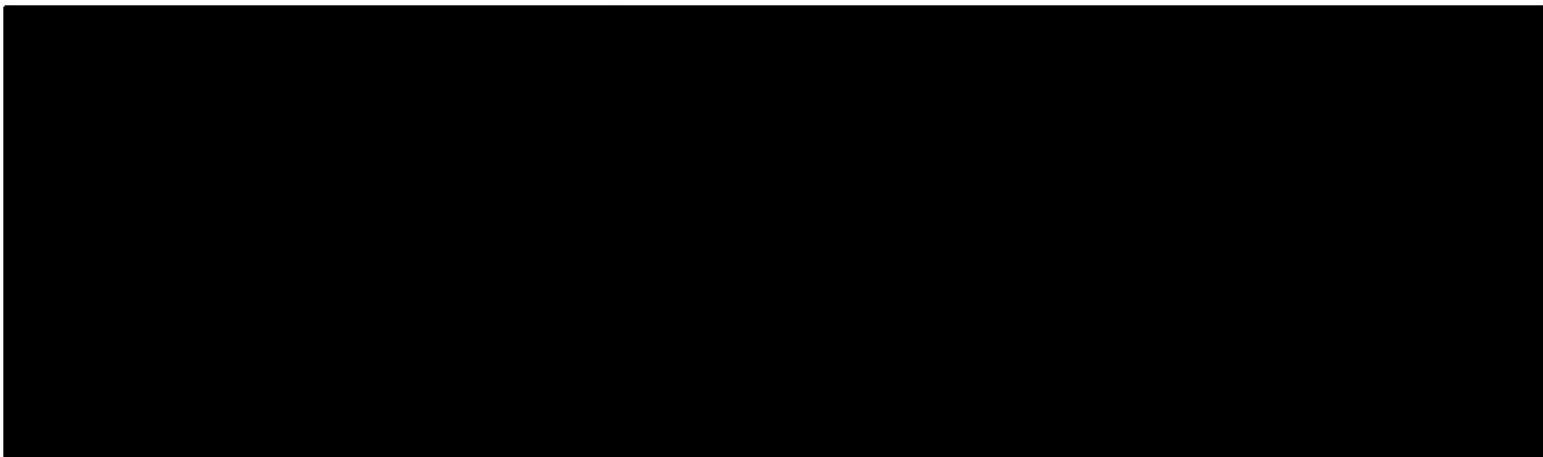

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

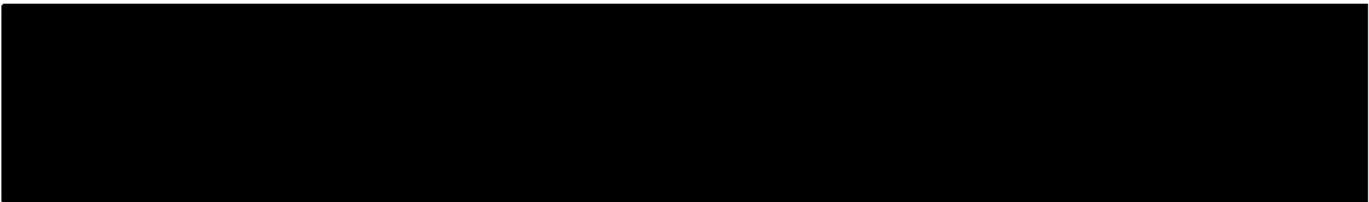

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *RUCK COBIS*

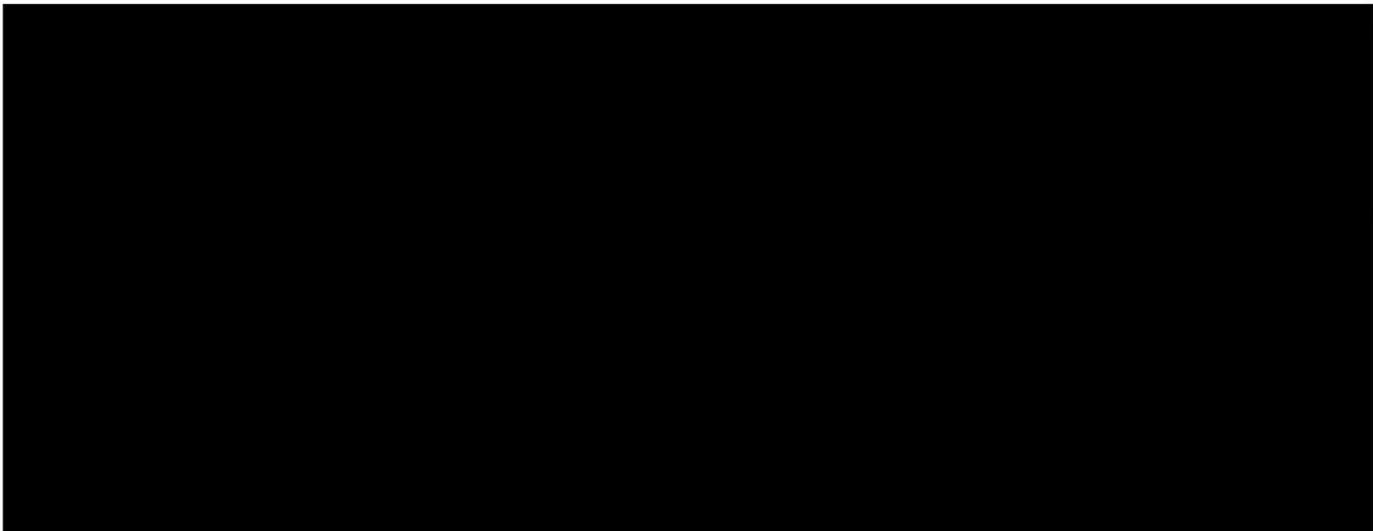

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

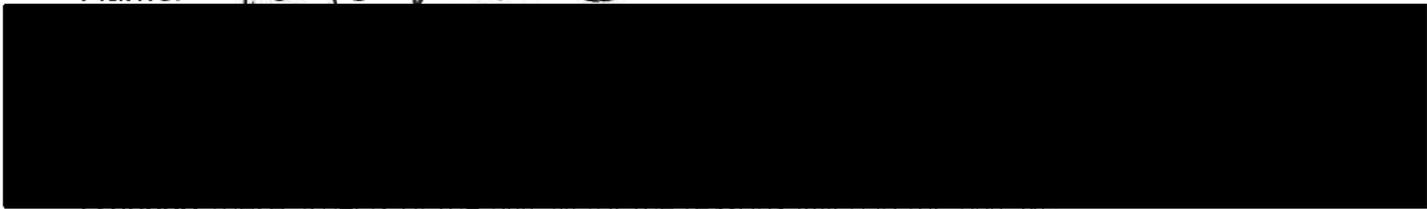

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore, NSW 2480

Name: *Pete Ventullo*

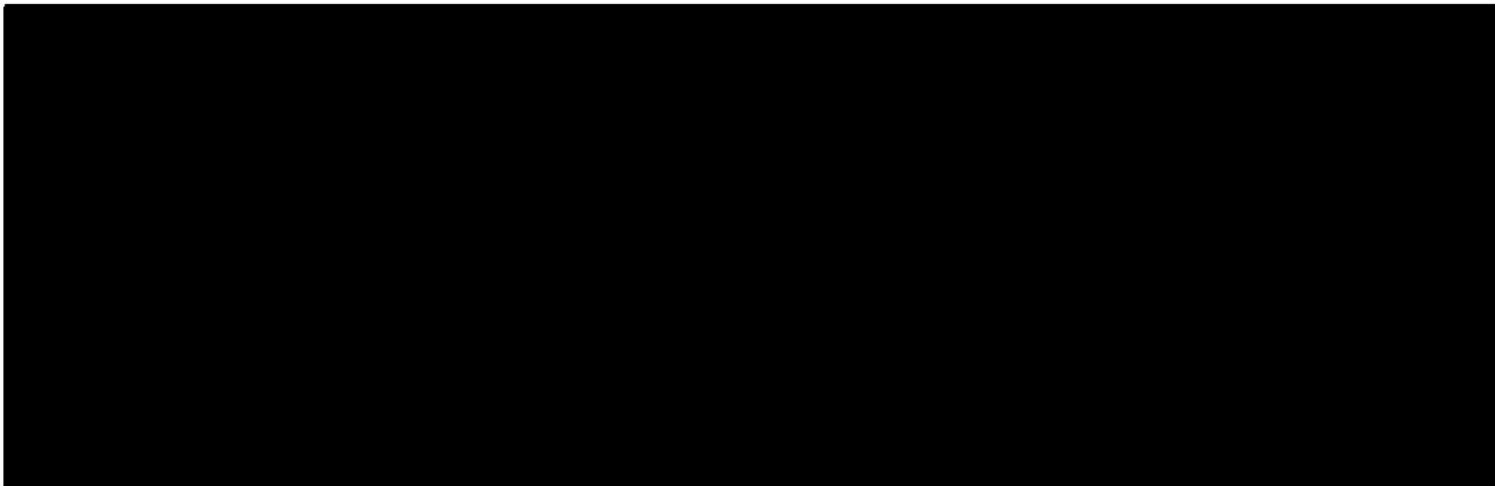

I support these aspects of the IWCM for the reasons given in the IWCM:

- ✓ Water loss management focused on Rous assets
- ✓ Section 15.4.2, development and implementation of a direct potable reuse scheme
- ✓ Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- ✓ Drought management planning
- ✓ Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- ✓ Sustainably powered temporary desalination plants on the coast
- ✓ Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Dams are not the only alternative!

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: John Peebles

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That they have already made the correct decision.
Don't be persuaded by those w. political interests
in revisiting the issue. They are the dinosaurs
of their era. Look to the future, embrace the
new technologies, don't waste our money on yesterday's
solutions to problems which don't even exist.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Christina Peebles

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I support all the IWCMs points above and oppose the construction of a Dam. The land is severely compromised already due to fires and loss of flora and fauna. This area has highly sensitive Indigenous areas. Preserve this area for posterity.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Fleur Letitia

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That I do NOT want this dam at Dunoon to go ahead. The damage to our very valuable and diminishing rainforest lands would be catastrophic and irreparable.

New developments should be fitted with rain water TANKS and areas in town could be retro fitted with Tanks

Feedback Submission
Revised Future Water Project 2060 - Integrated Water Cycle Management strategy

To: General Manager, Rous County Council
PO Box 230, Lismore NSW 2480

Name: Steffi Kwiatkista

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and community multiple times.

I want Rous Councillors to know.....

~~#~~ - use the water more than once (recycle water)

• ~~#~~ No more dams please, I care about the beautiful rain forest !!!

I SUPPORT these aspects of the IWCM, for the reasons given in the IWCM

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of direct potable reuse scheme

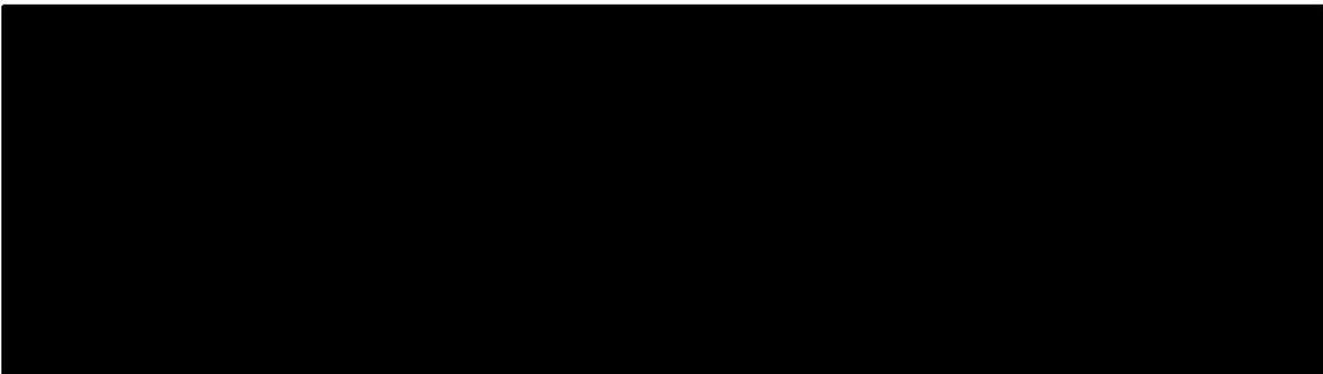

Sustainable groundwater usage NOT from the existing upper level Alstonville aquifer

Drought management planning

Section 15:4:3 Indirect potable water reuse, & its potential to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

Feedback Submission
Revised Future Water Project 2060 - Integrated Water Cycle Management strategy

To: General Manager, Rous County Council
PO Box 230, Lismore NSW 2480

Name: *Cas Hall*

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and community multiple times.

I want Rous Councillors to know.....

*No MORE DAMS too many of our Rivers
in this country have been damed. We need
More enviromentally friendly alternatives
Including water recycling. Water Tanks on
all houses not just homes on acreage!
And commerical industries need to use recycled water.*

I SUPPORT these aspects of the IWCM, for the reasons given in the IWCM

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of direct potable reuse scheme

Sustainable groundwater usage NOT from the existing upper level Alstonville aquifer

Drought management planning

Section 15:4:3 Indirect potable water reuse, & its potential to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

Feedback Submission
Revised Future Water Project 2060 - Integrated Water Cycle Management strategy

To: General Manager, Rous County Council
PO Box 230, Lismore NSW 2480

Name: *James Beard*

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and community multiple times.

I want Rous Councillors to know.....

*I don't believe Desal plant is the answer
people need to be personally responsible for their
own water*

I SUPPORT these aspects of the IWCM, for the reasons given in the IWCM

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of direct potable reuse scheme
- Sustainable groundwater usage NOT from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15:4:3 Indirect potable water reuse, & its potential to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

Feedback Submission
Revised Future Water Project 2060 - Integrated Water Cycle Management strategy

To: General Manager, Rous County Council
PO Box 230, Lismore NSW 2480

Name: *Rudolf Holdik*

Rous Board and community multiple times.

I want Rous Councillors to know.....

*that any standing forest had to
be kept to retain water!
Don't destroy any more
and extend protection for
forests. Support farmers who start
planting instead of cutting down trees.*

I SUPPORT these aspects of the IWCM, for the reasons given in the IWCM

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of direct potable reuse scheme

Sustainable groundwater usage NOT from the existing upper level Alstonville aquifer

Drought management planning

Section 15:4:3 Indirect potable water reuse, & its potential to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

Feedback Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management strategy

To: General Manager, Rous County Council
PO Box 230, Lismore NSW 2480

Name: J. C. Nothel

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and community multiple times.

I want Rous Councillors to know.....

I don't want the Dunoon Dam.
We want diversity when it comes
to the environment
and when it comes to the way we as humans
approach limits / problems.
Resilience comes by diversity.

I SUPPORT these aspects of the IWCM, for the reasons given in the IWCM

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of direct potable reuse scheme

Sustainable groundwater usage NOT from the existing upper level Alstonville aquifer

Drought management planning

Section 15:4:3 Indirect potable water reuse, & its potential to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

Feedback Submission
Revised Future Water Project 2060 - Integrated Water Cycle Management strategy

To: General Manager, Rous County Council
PO Box 230, Lismore NSW 2480

Name: JESSICA ROBERTSON

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and community multiple times.

I want Rous Councillors to know.....

that this proposal does not ensure water security for all. It does not consider the Aboriginal importance of the site. It does not provide options for water supply for all.

I SUPPORT these aspects of the IWCM, for the reasons given in the IWCM

- ✓ Water loss management focused on Rous assets
- ✓ Section 15.4.2, development and implementation of direct potable reuse scheme
- ✓ Sustainable groundwater usage NOT from the existing upper level Alstonville aquifer
- ✓ Drought management planning
- ✓ Section 15:4:3 Indirect potable water reuse, & its potential to recharge harvested aquifers
- ✓ Sustainably powered temporary desalination plants on the coast

PO Box 230, Lismore NSW 2480

Name: JOHN SHURMER

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and community multiple times.

I want Rous Councillors to know.....

- DO MORE ABOUT DEMAND MANAGEMENT
- ENCOURAGE RAINWATER TANKS
- RECYCLE WATER

I SUPPORT these aspects of the IWCM, for the reasons given in the IWCM

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of direct potable reuse scheme

Sustainable groundwater usage NOT from the existing upper level Alstonville aquifer

Drought management planning

Section 15:4:3 Indirect potable water reuse, & its potential to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

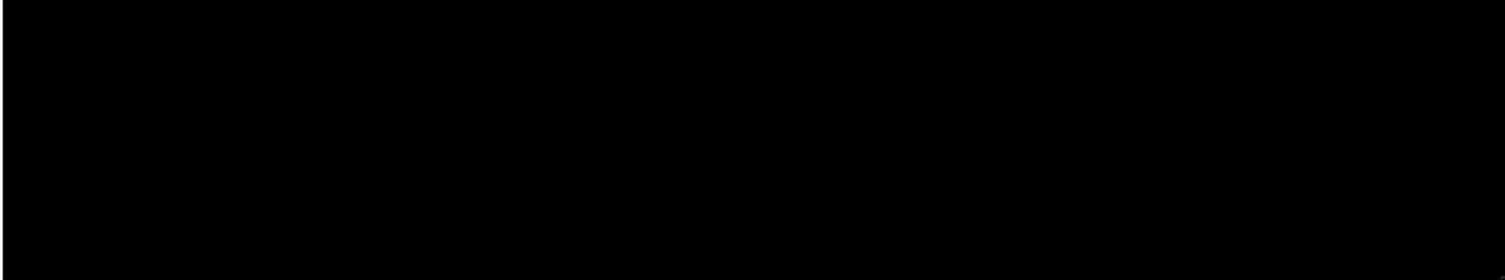

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Nathan James*

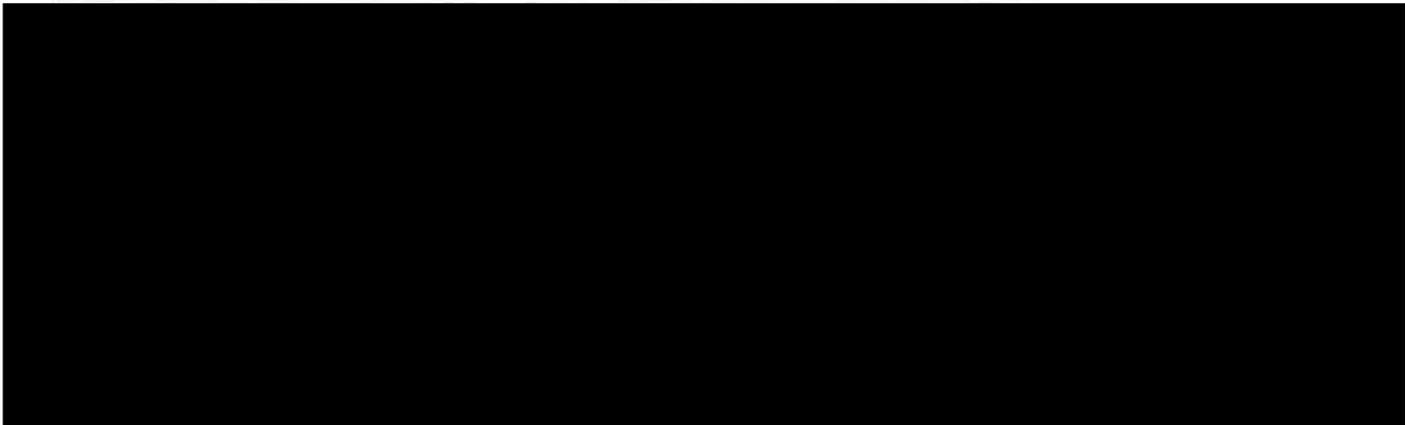

I support these aspects of the IWCM for the reasons given in the IWCM.

- / Water loss management focused on Rous assets
- / Section 15.4.2, development and implementation of a direct potable reuse scheme
- / Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- / Drought management planning
- / Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- / Sustainably powered temporary desalination plants on the coast
- / Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*I support your new future water project
I DON'T WANT DUNOON DAM*

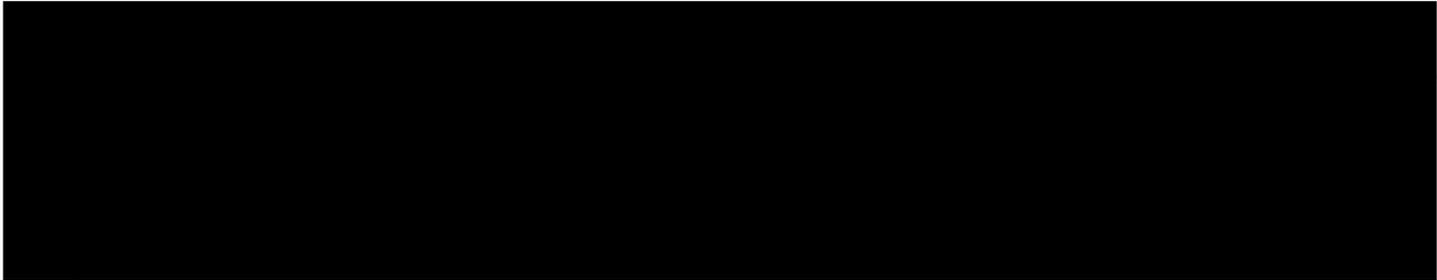

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Carl*

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

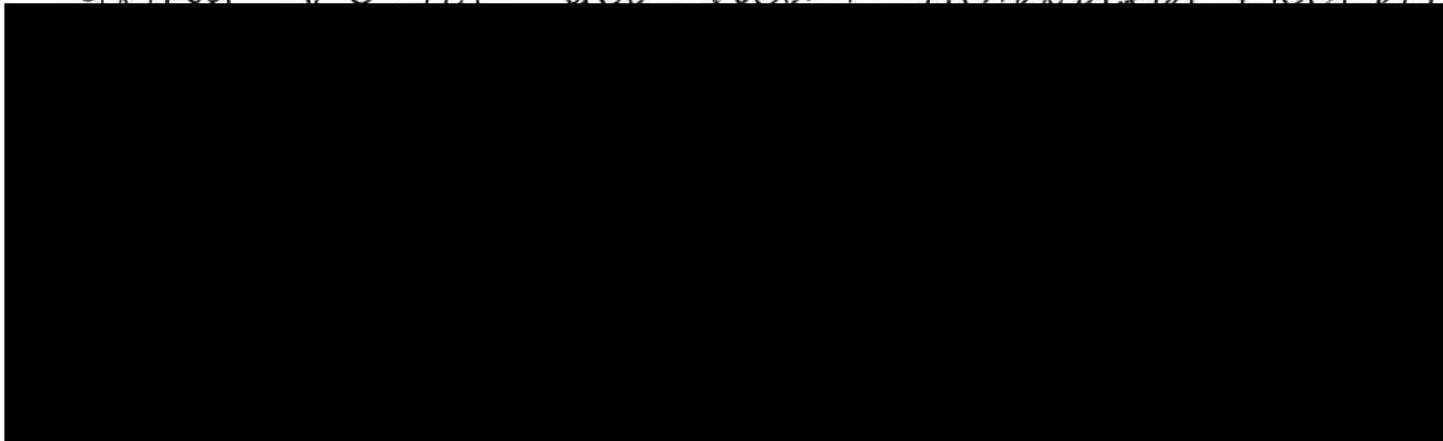

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

*we need compost loos, koala bears, healthy
happy koala bears, rain water tanks,
repairs, respect for indigenous sacred
places, platypus health is important,
you wouldn't want interbreed humans
would you want interbreed platypus*

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Jennifer Joy

I support these aspects of the IWCM for the reasons given in the IWCM.

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I am totally opposed to the building of the Dunoon Dam. It is the wrong place, wrong time, & wrong solution to our water resource problems as experienced in this region. There are other ways & they have been clearly described by people more knowledgeable than me - look elsewhere, look beyond the obvious - BE CREATIVE

Submission

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *flossy privett*

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I Do not support the Dunoon Dam.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

EST GULL MORE

I support these aspects:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Rare SubTropical forest in
our Caldera requiring Reverence &
Respect - NOT DESTRUCTION - for the
Education & Empowerment of present &
future generations.

Focus on solutions to harvest rainwater
rather than modify & destroy endangered

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

FRANCES WEAVERS

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Building new or expanding existing dams, is not a viable solution to the problems of water supply, drought mitigation. There are other more sustainable solutions that should be explored and supported to ensure water security. Destruction of environments is also a major concern.

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Megan Keating

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

There is, within the community, great support for changing water usage habits, water recycling, tanks in each household, in-house grey water recycling etc. People want to do this. Council regulations to ensure these methods of water use are needed. Loss of habitat, indigenous sacred sites ~~is not enough~~ are too great a price to pay for council cowardice.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: William Lincoln

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

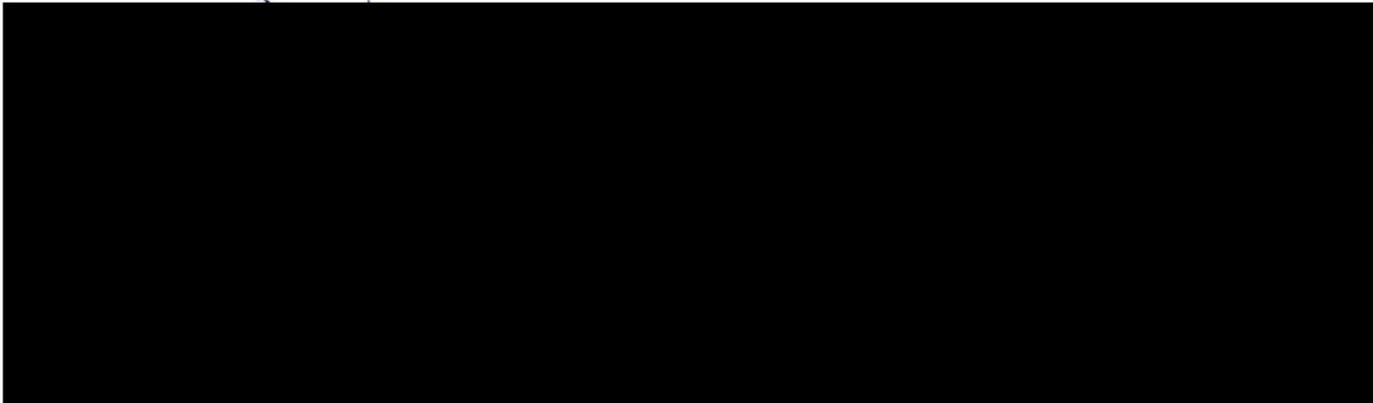

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

that I am opposed to a new Dam

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: GERHARD RATHMANNER

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I support DROUGHT MANAGEMENT planning,
rainwater usage (tanks) and all the
other steps taken to improve water usage
and water saving.

Date: 17/4/2021

the campaign with updates from Water Northern Rivers

olved

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: RICHARD WELLS

I support these aspects of the IWCM for the reasons given in the IWCM:

- ✓ Water loss management focused on Rous assets
- ✓ Section 15.4.2, development and implementation of a direct potable reuse scheme
- ✓ Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- ✓ Drought management planning
- ✓ Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- ✓ Sustainably powered temporary desalination plants on the coast
- ✓ Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

This is a very serious situation, when the remaining critical habitat for so many threatened species is so foolishly destroyed for so little gain. This proposal is a return to the time when governments knew nothing about sustainability, environmental protection or the value of wildlife conservation, why go back to ignorance?

Submission

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Bunny Calero*

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Precious Koala habitat → ecological communities (rainforest) would be destroyed as well a cultural heritage.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Leilani Kvia.

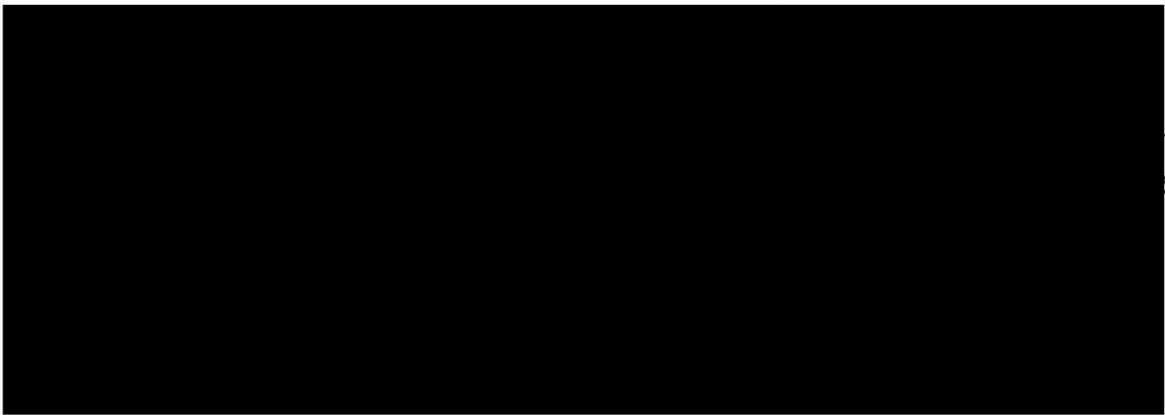

I support these aspects of the IWCM for the reasons:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

rivers

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *ENDRE KVIA*

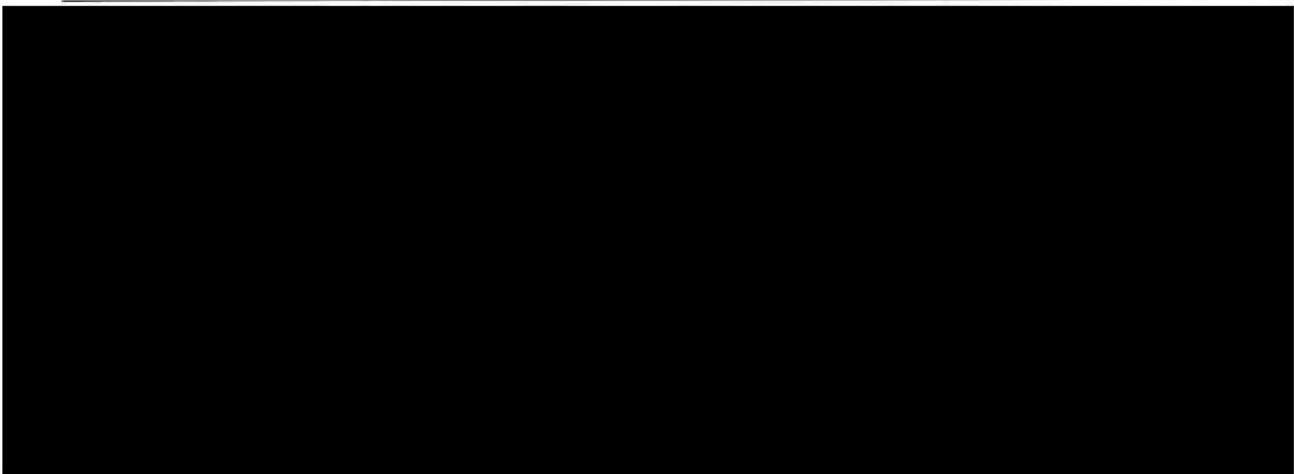

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

SAVE OUR RAINFOREST

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: *Stephane Rouiller*

A

I **support** these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

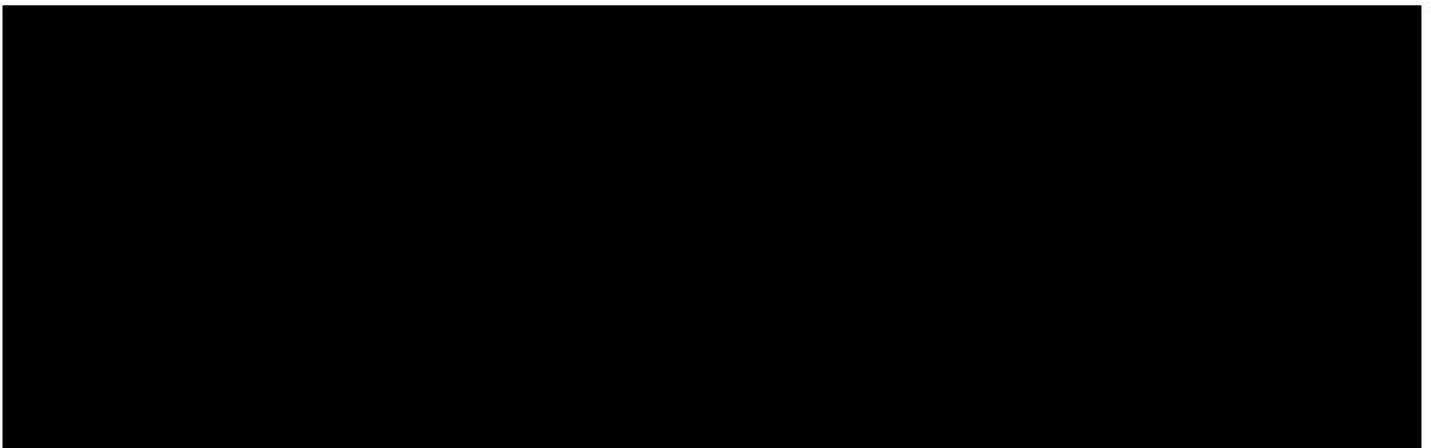

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

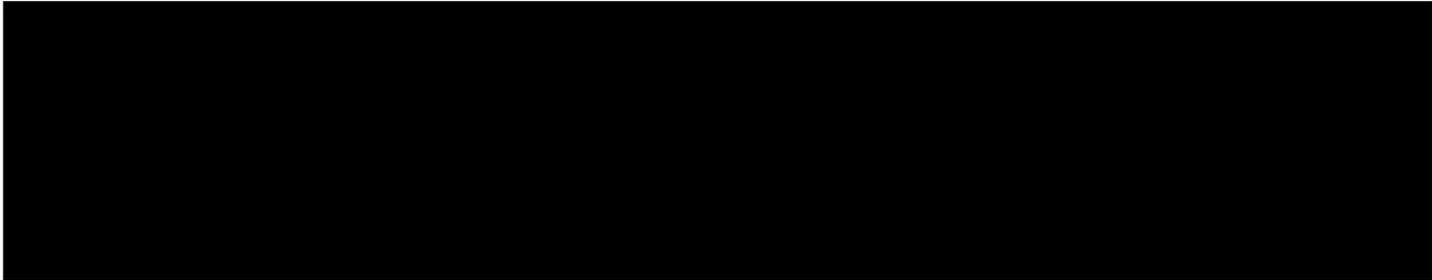

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

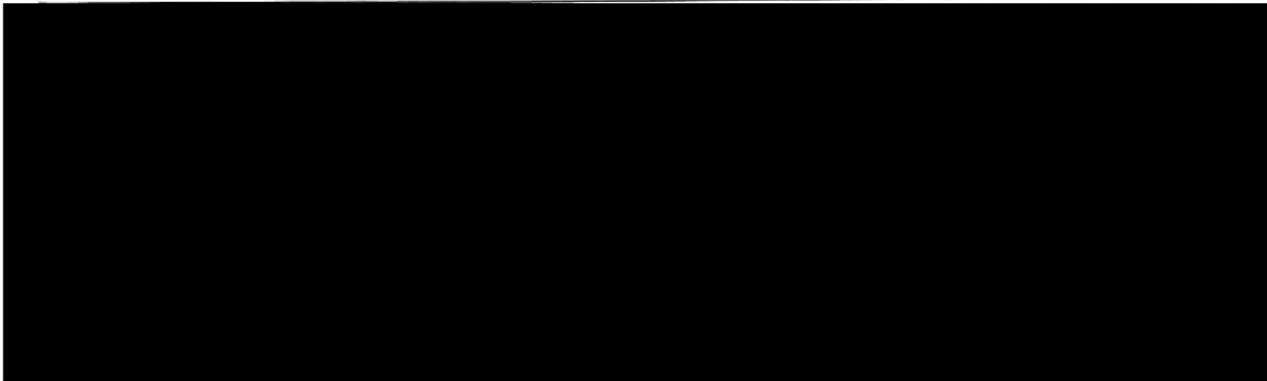

Name: Makayla Russo

- ✓ Water loss management focused on Rous assets .
- ✓ Section 15.4.2, development and implementation of a direct potable reuse scheme
- ✓ Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- ✓ Drought management planning
- ✓ Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- ✓ Sustainably powered temporary desalination plants on the coast
- ✓ Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Jenni Cargill

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I think it's very important in a changing climate to take the Dam off the table permanently. The research has been done and the best scientific advice is that we do NOT need a new dam. We can conserve + harvest rainwater in much more innovative ways as already established. We also need to conserve trees + forests (as they generate + attract rainfall).

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

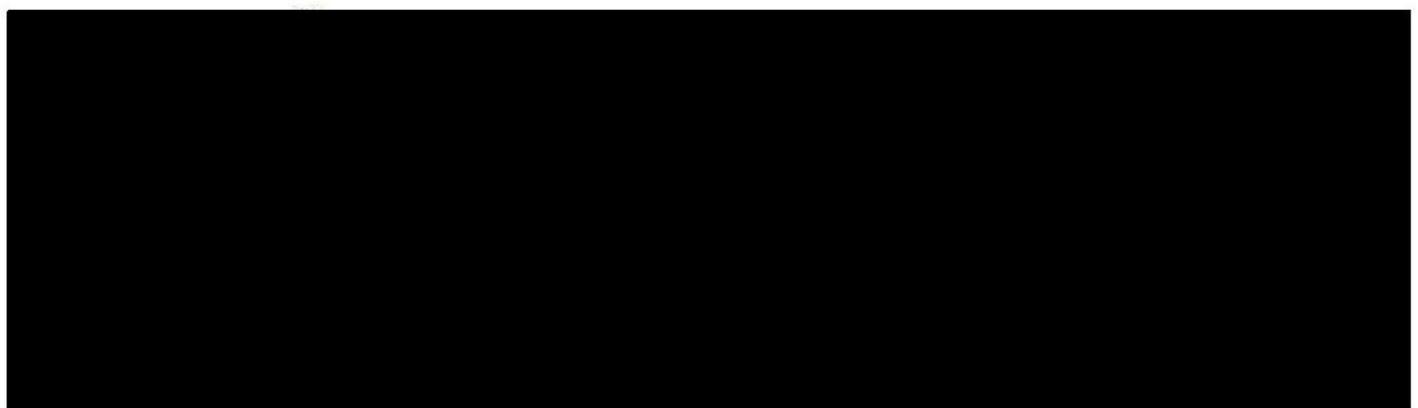

Name: MARY SPENCER

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: CATHERINE LANYON

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I'm surprised to see the Dunoon Dam appear so prominently in the IWCM as it has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

don't want loss of rainforest areas

want better communication and education with local population about these issues, and alternatives

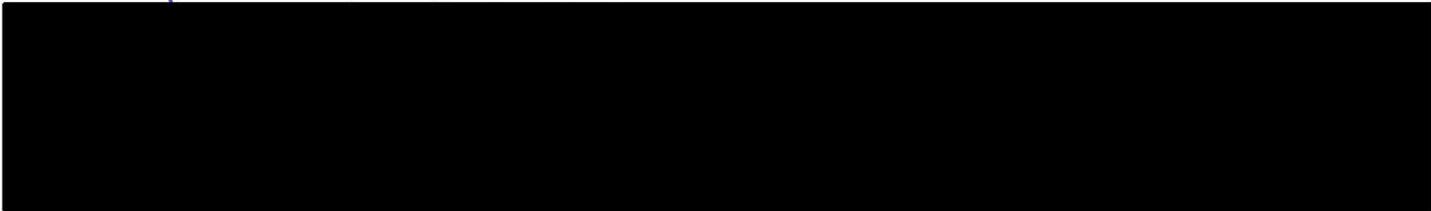

priority of quality of life, sustainability etc over "greedy" or poorly planned development.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Mia Thom

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a water saving scheme

Sustainable groundwater usage **not** source of water for the Stoneville aquifer

Drought management planning

Section 15.4.3, indirect potential for water saving in unconfined aquifers

Sustainably powered temporary water storage

Table 41, the disposal of land zoned

Bundjalung Youth

I **oppose** the Dunoon Dam that has been rejected by the community several times.

I want Rous Councillors to know:

This is not a long term, & sustainable solution to water safety. This is a blatant destruction of ecologically and culturally significant sites. As a Bundjalung youth, this completely culturally inappropriate and jeopardises my right to a safe future.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Lee Kirk.

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

There are alternative ways to use,
harvest & store water for our
community that does not require
the destruction of important habitat.
Step up & be a leader. We need
to devise new & innovative ways to
use & harvest water.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Marie-Laurence Paquette

I **support** these aspects of the IWCM for the reasons given in the IWCM.

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

• Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

that the loss of the rare and fragile habitats that would get flooded through the new dam do not need to be lost when so many alternatives can be implemented first to retain, recycle and prevent water from being lost in the first place with the infrastructures already in place. Thank you

Submission

Revised Future Water Project 2060 - Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Andrew Lynden - Bell

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

It is not in the long term best interests
to permit this Dam to go ahead.
Please consider more sustainable options
like community water harvesting

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Lorin Lynden - Bell

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

It isn't the best option.

Better to look into recycled water & more rain water harvesting projects for individual homes.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: ALISON MOORE

I support these aspects of the IWCM for the reasons given in the IWCM:

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

That I do not support the building of the dam and that long term water resilience needs to be the focus of the county to ensure the future of this land and its inhabitants – human, animal and all other living systems.

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

strong opposition to Dunoon Dam.

Date: 09/05/21.

I'd like to keep in touch with the campaign with updates from Water Northern Rivers

I want to be more actively involved

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Guy Proesser

Water loss management focused on Rous assets

Section 15.4.2, development and implementation of a direct potable reuse scheme

Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer

Drought management planning

Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers

Sustainably powered temporary desalination plants on the coast

Table 41, the disposal of land zoned for the Dunoon Dam

I **oppose** the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

I want this environment to be protected. And Alternative options investigated.

Submission

Revised Future Water Project 2060 – Integrated Water Cycle Management Strategy (IWCM)

To: General Manager, Rous County Council, PO Box 230, Lismore NSW 2480

Name: Ross Kendall

I support these aspects of the IWCM for the reasons given in the IWCM:

- Water loss management focused on Rous assets
- Section 15.4.2, development and implementation of a direct potable reuse scheme
- Sustainable groundwater usage **not** sourced from the existing upper level Alstonville aquifer
- Drought management planning
- Section 15.4.3, indirect potable water reuse in general and used to recharge harvested aquifers
- Sustainably powered temporary desalination plants on the coast
- Table 41, the disposal of land zoned for the Dunoon Dam

I oppose the Dunoon Dam that has been rejected by the Rous Board and the community several times.

I want Rous Councillors to know:

Buloh Downs don't solve our problems, but
may run worse

I want to be more actively involved
