

We are the water guardians

Everyday, where we go, what we do,
What we know, about water,
Makes a difference on the earth.
Forever and forever, we are the guardians,
Forever and forever we'll take care.

Ooh ooh, that means me, that means you,
So many clever things we can do,
To save water,
Mmm mmm save water.
There's only so much for us to share,
So get with the program, stay aware,
About water, precious water.
